Task 0412
cc: Peter

Application to Revise a Notice of Intention to Commence Small Mining Operations or Exploration

RECEIVED

JAN 21 2015

DIV. OF OIL, GAS & MINING

Operator: ROLLING THUNDER R&D			
Mine Name: SNAKE VALLEY MINE		File Number: E or <u>(S)</u> 041 / 0040	
Provide a detailed listing of all changes to the Notice that will be required as a result of this change. Individually list all maps and drawings that are to be added, replaced, or removed from the Notice. Include page, section and drawing numbers as part of the description.

RECEIVED

JAN 21 2015

2. **Is the project within an incorporated area?** () Yes (X) No
If yes, what is the town or city? _____
3. **Location and Operations maps** must be plotted at a scale to accurately identify locational landmarks and operations details. All maps must include a north arrow, scale, appropriate labels, and title box including the mine name, township, range and section.
- a. The **general location map** must be the scale of a USGS 7.5 minute series map or equivalent (1"=2000') and identify new or existing access roads.
- b. The **operations map** (1"=200' or other scale as determined necessary by the Division) must be labeled and identify:
- The area to be disturbed;
 - The location of any existing or proposed operations including access roads, drill holes, trenches, pits, shafts, cuts, or other planned activities; and
 - Any adjacent previous disturbance for which the operator is not responsible.
- (Contact the Division for a list of consultants and land surveyors for mapping assistance.)
4. The proposed (5 acre or less) disturbed area (including access/haul roads) should be marked ON THE GROUND with metal T-Posts (or with some other marker of equal effectiveness). Markers should be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.

III. **OPERATION PLAN** (Rule R647-3-106)

1. **Type of mining:** Surface () Underground (X)
2. **Mineral(s) to be mined:** _____ PRECIOUS METALS
3. **Amount of material** to be extracted, moved, or proposed to be moved: 6 RC drill holes, 200' deep from the road. Disturbance will be minimal, and 50 tons may be disturbed in pad/mud pit construction. Sample size <2 tons.
4. Will any **water, liquid chemicals, reagents, or other solutions** be used, produced or discharged as part of the mining or milling process? Yes (X) No () If yes, please describe (add extra pages if needed): WATER WILL BE USED FOR DRILLING.
5. Provide a brief **description of the proposed mining operation**, and onsite processing facilities (add extra pages if necessary). ~~Mining will be underground, with an entrance from the portal shown on Figure 2. Ore will be crushed to 6" minus, stockpiled in the staging area, then transported to a separate and approved facility for processing.~~ Update January 19, 2015. RC drilling planned prior to any mining. 6 holes will be drilled from the road into the ore. Total surface disturbance of less than 1 acre. Some pad development may be necessary, with a mud pit to contain drill water along the borrow side of the road. Drill holes will be 6" diameter and 40-200' deep. No groundwater is anticipated.
6. () **New Road(s):** Length _____ (ft), Width _____ (ft)
7. (X) **Improved Road(s):** Describe improvements that need to be made to existing roads to access the site, including the Length _____ (ft) and Width _____ (ft) of new disturbances.
No widening of improved roads is required. Roads will remain open or closed during blasting per MSHA guidelines.
8. Total project surface **acreage to be disturbed:** ~~4.0~~ 1.0 (acres) PLEASE SPECIFY EXACT ACREAGE (this will be used to determine surety bond amount – see #VI).
9. Proposed **startup date** (month, year): January, 2014
10. Proposed **completion**, if known (month, year): September, 2016
